Helix Power Tower **PLUS** Installation Instructions

(2005-2006 Ford F-150 4.2L V-6 Part #42016)

Important! Read all instructions before you begin installation.

1. Disconnect the PCV vent from air inlet tube. Loosen and remove air inlet from throttle body.
2. Loosen and remove the four bolts holding throttle body to intake manifold.
3. Install Helix Power Tower Plus (engraved side towards throttle body) and gasket in between the throttle body and intake manifold. Using the longer bolts and washers to secure throttle body to intake manifold. Torque to 89in/lb
4. Install air inlet to throttle body and reconnect the PCV vent tube.
