## Smart-Mount Windshield Bumper Escutcheons Installation Instructions (Part #719706)

**Important!**  
**Read all instructions  
before you begin  
installation.**

1. Open the hood. Properly hold hood open with prop rod.
2. Lubricate windshield bumper tab with silicone or similar lubricant. Carefully, pull-down on bumper tab. Twist lightly and remove windshield bumper. Insert windshield bumper into the escutcheon. Place escutcheon and bumper on original hood location. Again, carefully pull bumper tab down, locking the escutcheon and bumper on hood.
3. Repeat for last windshield bumper.

For a completely new look, consult your parts department at a dealership. They may have new windshield bumpers in stock. The part number for the windshield bumper (each) is 55075590AB.
